

# Assembly manual - PHITS Y8

1. Remove carefully the top cover. Release the cable brackets of the filters plate from the lower cover. Take the filters plate and the back cover apart.

2. Place plate B making sure the holes match the mounting filters plate.

3. Replace the back cover and the filters plate.

4. Place plate BK at the back cover. All the plates are cut to fit between them.

5. Place plates R and L, in this order.

6. Fill in the inside with three-quarters of the Damping Fiber without reaching the back side.

7. Place plate T as shown in the picture. The Acoustic Foam should draw an arc inside.

8. Fill in the hole left behind with the remaining fiber.  
9. Replace the top cover and all the screws.
