

# PHITS-K23A - Assembly Manual

## Assembling your Phits.

1. Take the top cover and the front panel apart paying attention not to force the cables.
2. Remove the back cover's side screws.
3. Place plate BK as shown in the picture below.
4. Place plate B adjusting it against the BK plate.

5. Place plates L and R adjusting it against the BK plate sides.
6. Place plate INT as shown in the picture below. Be carefull to not damage this Basotect Foam.
7. Place plate T between plate BK and the back cover edge.
8. Put the front panel together again and the back cover's side screws.
9. Put the top cover back together and screw again.
10. To close together the speaker you might have to make a mild effort to guarantee a more efficient closure between the plates.

**Your speaker is ready. Enjoy it!**
